Take caution when interpreting rankings: there are many 'ties' between LAs due to rounded percentages, so any rank is sensitive to this - for example, if Swindon was considered to have 93% instead of 94% of its Year 2 girls having met the standard, it would be ranked 97th rather than 54th

Comments:

Swindon falls below the national benchmark for its SEN and FSM pupils.

Swindon has a slightly larger than average gender gap in Year 1, but narrows this to the average gap by the end of Year 2
