

## A modern day version of one of Jesus' parables

Imagine that you are bidding for the commission to produce a dust jacket for a new edition of one of Jesus' parables. If your design is successful you will earn lots of money. You therefore need to include with your design an explanation of your front cover, as well as the suggested blurb for the back

Your design must include the following:

- A front cover which shows the key moment from the parable (this could be updated and placed in a modern setting)
- You need to annotate your design to show the publisher how it reflects the story
- You need to include a blurb for the back cover which shows why this story is important for Christians

Imagine that this new edition has now been published. Someone has emailed in to complain that it is wrong that update parables like this; they say that in a multi cultural society religious stories should be left as historical documents.

Email back an answer to explain what you think all people today might learn from reading this parable.

Your work will be assessed according to the following levels:

- Level 3 You can:
  - describe the key teaching of this parable
  - describe the importance of Jesus' parables
  - give your opinion on whether this parable is still relevant today
- Level 4 you can:
  - show an understanding of the teachings of this parable
  - describe how Jesus' teaching are put into practice by Christians today
  - express your views on whether this parable still relevant today
- Level 5 you can:
  - explain the teachings of this parable
  - explain how religious sources (parables) are used and put into practice by the Christian community today
  - express your views on how practical this parable is for today's world

## A Modern Day Version of the Good Samaritan Assessment

Have you done the following?	RED	AMBER	GREEN
Described a key teaching of the parable			
Annotated the front cover to show the key teaching			
Described how Christians put the parable into practice			
Written you email to give your own views on whether the parable is still relevant today			

One really good thing about this piece of work is...

One way in which it could be improved is...

I would give this a level \_\_\_\_\_ because
