

A Letter from God

Dear Humankind, (Children)

I am observing your lessons from up here in heaven I love to talk with people but they don't always want to talk to me so I thought I would write to you instead.

Life for my planet has been increasingly difficult since deforestation has progressed so much. The earth is struggling to breath with all the pollution that you are producing. The consequences are devastating as the ice caps are melting so the sea levels are rising and this means that some islands are being completely flooded.

Are you aware of what you are doing to my precious creation? I made this all for you, and left you to look enjoy it and look after it yet you do not seem to appreciate it. What will happen if you continue, I know but do you?

More people will get skin cancers because parts of the ozone layer have permanently disappeared. Many of my creatures are dying and even people's lives are at risk because of your actions.

I love you all so much and am so concerned about your future. Please write back as I long to know your thoughts about this.

Yours Faithfully

*God
aka G-d
Yahweh
Your loving father*
