NB - these band values are aimed at providing funding for the vast majority of pupils in high needs settings but bespoke individual levels of funding will be agreed where there is evidence of exceptionally complex needs. This will typically arise where a pupil would be categorised as band 1 in 2 or more areas of difficulty e.g. where a pupil with PD as a prime need also has severe speech, language and communication difficulties. Applications for bespoke funding will need to be agreed by the Commissioner for Education and/or SENRAP panel on an interim basis prior to moderation.		NB - Early Years pupils will attract 0.6 FTE funding based on them accessing an assumed 15 hours per week of Free Nursery Entitlement	NB - Post 16 pupils in schools may attract a proportion of FTE funding based on agreed teaching time
NB - PFI settings will attract additional funding to match their contribution to the Affordability Gap
