

Appendix 2 Top 3 priorities for health and social care services in Swindon (Base =109).

If Other, please specify what area(s)
My top priority would be looking after visually impaired people and those with hearing loss in the community.
Rid the system of overpaid 'managers' in supposed commissioning bodies.
Charge people for A&E if a result of alcohol excess
Communication is essential between providers, pateint and patients family.
We need more meetings to disuse alternative remedies for health.More and more people are turning to natural products because of side effects from prescription drugs
Care of the elderly in their own homes, also in hospitals.
For improved 1:1 counselling services to be accessible via GP's. Current IAPT provision is not enough and at times inappropriate.
Maternity
Community based support so not reliant on NHS services.
Support for those with chronic pain illness.
Keeping up with latest non drug treatmennts for GI patients.
Prevention and intervention in case of obesity and weight management.
